

APPLICATION FOR STEM CELL OVERSIGHT COMMITTEE REVIEW FOR GRANTS USING APPROVED CELL LINES

INFORMATION SHEET (do not submit this page with completed application form)

Researchers should consult the 2nd Edition of the *Tri-Council Policy Statement: Ethical Conduct for Research Involving Humans or TCPS 2 (2014), Chapter 12, section F* and Frequently Asked Questions to determine whether or not the research requires review by the Stem Cell Oversight Committee (SCOC). There are links to these documents on the CIHR website (<http://www.cihr-irsc.gc.ca/e/15255.html>). Any questions can be directed to StemCell-Cellulesouche@cihr-irsc.gc.ca.

IF YOUR APPLICATION:	COMPLETE SECTIONS
<ul style="list-style-type: none"> Proposes to derive human embryonic stem cells and/or use human embryonic stem cells that have not yet been approved 	PLEASE CONTACT StemCell- Cellulesouche@cihr- irsc.gc.ca.
<ul style="list-style-type: none"> Is for Trainee or student funding 	APPLICATION FORM FOR TRAINEES

Additional information may be requested from the researcher if SCOC has concerns that are not addressed in the documentation provided.

Governing Council has delegated its authority to approve research using existing SCOC-approved human embryonic stem cell (hESC) lines and/or human induced pluripotent stem (iPS) cells or their derivatives to SCOC. SCOC will respond to research proposals within its delegated authority within 30 business days of receipt of a complete application.

Governing Council's approval is required on all other types of research proposals (e.g., research involving the derivation of hESC from human embryos, the use of hESC lines not yet approved by SCOC).

Please send completed form to:
Stem Cell Oversight Committee
Canadian Institutes of Health Research
160 Elgin St., 9th Floor
Address Locator 4809A
Ottawa, Ontario K1A 0W9

<p>3. Will any non-human animals be engrafted with human pluripotent stem cells or cells derived from human pluripotent stem cells in this project? Yes (see below) No If 'Yes':</p> <ul style="list-style-type: none"> • Will any non-human animals engrafted with human pluripotent stem cells or cells derived from human pluripotent stem cells in the course of this research be used for reproductive purposes? Yes No
<p>4. Does the research involve grafting human pluripotent stem cell lines, or cells derived from them into human subjects? Yes (see below) No If 'Yes', the research must also be in compliance with the <i>Food and Drugs Act</i> and all its applicable <i>Regulations</i>, including the Canadian Safety of Human Cells, Tissues and Organs for Transplantation Regulation, which must be confirmed by Health Canada. Has the application been submitted to Health Canada? Yes No</p>
<p>5. Describe the potential benefits of this research:</p>
<p>6. Describe how each of the human pluripotent stem cell lines will be used. Please list each experiment that involves the use of human pluripotent stem cells and briefly (5-10 lines) describe specifically how the cells will be used in each. SCOC has a diverse composition, so the description should be written in non-technical, jargon-free language, with sufficient detail for SCOC to assess whether the use conforms to the provisions of TCPS 2 (2014). If this is a program grant application, please include detail on the protocol and methods to be used. As needed, subsequent SCOC applications may be submitted in future years as the projects evolve. This will ensure that SCOC has a clear understanding of which experiments proposed in the application for funding involve the use of human pluripotent stem cells, as the grant itself often does not provide sufficient detail and the experiments involving pluripotent cells may be included in different sections throughout the grant.</p>

APPENDICES: You <u>must</u> check a box in each section
<p>Appendix 1 Funding application</p> <p>Attach one complete copy of the original application for funding as Appendix 1 (mandatory). Please include the budget, the list of patents held by the principal applicant, and the list of the funds requested and the funds held by all applicants where these are not part of the application for funding.</p> <p>I have attached the complete application for funding.</p>
<p>Appendix 2 Agreements and contracts</p> <p>Are there agreements that may:</p> <ul style="list-style-type: none"> • limit the ability to share tissues that may be derived from hESC in the course of the research; or • restrict the right to publish the results of the research using hESC (see 'Frequently Asked Questions' for interpretation of what constitutes a reasonable delay, generally submission for publication within approximately 90 days); or • impose commercial or other obligations that are related to the use of the hESC? <p>Yes No, there are no relevant contracts</p> <p>If yes, please list and append the agreements, specifying the relevant provisions of each, with a brief explanation. Failure to append relevant contracts may delay grant approval, please see Article 12.20 of TCPS 2 (2014).</p>
<p>Appendix 3 Financial interest</p> <p>Please see Article 12.19 of TCPS 2 (2014): In some instances, disclosure may not be a sufficient response to concerns about actual, perceived or potential conflicts of interest and researchers and/or their institutions may be asked by SCOC to remedy any possible distortion of proper procedures attributable to such conflicts.</p> <p>Do you or your co-applicants have any financial interest in the outcome of the research described in this application?</p> <p>Yes No, neither I nor my co-applicants have any financial interest</p> <p>If yes, please describe in detail any financial interest you may have in the outcome of the research described in this application and explain any commercial plan in a few short sentences and provide relevant documentation, and attach these as Appendix 3.</p>
<p>Appendix 4 Other conflicts of interest</p> <p>Do you have any other conflicts of interest in the outcome of the research described in this application?</p> <p>Yes No</p> <p>If yes, please append a description as Appendix 4. If no, then Appendix 4 is not required.</p>

ATTESTATIONS: You <u>must</u> check each box below
<p>i) An amended application will be submitted to SCOC for review and approval if any changes in direction of the research involving human pluripotent stem cells are planned, before such work commences</p> <p>Yes</p>
<p>ii) An amended application will be submitted to SCOC for review and approval if a Trainee receives separate funding for related research.</p> <p>Yes</p>
<p>iii) SCOC will be provided with written notification should the use of additional SCOC-approved stem cell lines not described in the original research application be planned (this notification would include the title of the original application, the name of the PI and indicate which cell lines would be used).</p> <p>Yes</p>
<p>iv) I understand my research institution's conflict of interest policy and will comply with that policy.</p> <p>Yes</p>
<p>v) SCOC will be notified of relevant contracts and/or potential conflicts of interest as they arise.</p> <p>Yes</p>
